FABRIC TECHNOLOGY

THE CUTTING EDGE OF UNIFORM DESIGN

Through advanced technologies and innovative design, Elbeco uniforms solve job-specific challenges while also enhancing performance, protection, comfort and durability.

Stretch Fabric

Made for the occupational athlete, our stretch fabric increases range of motion, agility and comfort, allowing you to perform your daily duties at the highest possible level.

3-in-1 System

Designed for maximum versatility, our 3-in-1 system allows you to mix, match and combine outerwear options for enhanced protection and performance in any weather.

Custom Women's Fit

Designed by women for women, our women's fits include added enhancements that provide exceptional comfort, fit, performance and professionalism.

NANO FLUID REPELLENCY

A permanent fiber technology that won't wear out or wash away, it effectively repels fluids, which bead up and roll off the fabric to keep you dry and comfortable in any situation.

NANO MOISTURE WICKING

Engineered at the fiber level for permanent performance that lasts the life of the garment, Nano moisture wicking technology pulls fluids away from the skin and evaporates off the fabric for quick-dry comfort.

UV PROTECTION

Excessive exposure to sunlight is harmful to you and your uniform. Our UV40+ protection offers your skin a frontline defense against the sun while also preventing the fabric from fading.

ANTI-MICROBIAL

Our advanced anti-microbial technology reduces the accumulation of bacteria that cause odor to keep the fabric fresher longer and prolong the life of your uniform.

HYDROTECH

The job doesn't pause for weather. This windproof, waterproof, and breathable membrane provides exceptional comfort and performance no matter the conditions.

STRETCH

Made for the occupational athlete, our stretch fabric increases range of motion, agility, and comfort, allowing you to perform your daily duties at the highest possible level.

3-IN-1 SYSTEM

Designed for maximum versatility, our 3-in-1 system allows you to mix, match and combine outerwear options for enhanced protection and performance in any weather.

CUSTOMIZATION

HEAT TRANSFER

Heat transfer embellishments are available on the majority of our stock products – polos, shirts, vests, jackets, and panels – customized to your requirements.

EMBLEM PLACEMENT

With our new automatic emblem attachment machine, emblems are placed securely and consistently every time. Each placement is laser guided to ensure the results you require.

EMBROIDERY

Logos and text can be embroidered onto the majority of our products with consistent and professional results every time.

TAILORING AND HEMMING

Elbeco's team of experienced industrial sewers hem and customize garments to meet all of our customers' needs with professional and timely service.

LION CERTIFIED UNIFORMS

NFPA-CERTIFIED UNIFORMS

DESIGNED FOR COMFORT & BUILT TO LAST

LION Certified Uniforms (Formerly LION StationWear™) are engineered for easy care, maintenance and long wear and are being updated to enhance the comfort and improve the functionality. LION Certified Uniforms are specifically designed for activities performed by professional firefighters and medics.

Your uniform provides more than just an identity function, it is a part of your personal protective ensemble. That's why each LION certified uniform garment is engineered to maximize safety and promote professional pride.

With LION Certified Uniforms, you get:

- Available in DuPont™ Nomex® IIIA, TenCate TecaSafe®, and 100% Cotton
- Designs with features that facilitate job performance
- Construction and reinforcements that meet the challenges of your job head on
- Wicking fabrics that transport sweat away from the body and toward the bunker gear's breathable moisture barrier.

NFPA 1975-COMPLIANT: The underlying purpose of NFPA 1975 is to provide uniforms that are thermally stable and do not contribute to burn injury severity. Our NFPA 1975-compliant uniforms are made with fabrics, pocketing, labels, waistbands, zipper tape, and sewn with thread, all certified to meet this requirement. LION Certified Uniforms are independently audited and certified.

LIFETIME WARRANTY: All LION certified uniform products are warranted to be free from defects in material and workmanship for the life of the garment.

Contact your LION uniform sales representative for more information on certified uniforms.

ELBECO UNIFORMS

CX360™ SHIRTS & PANTS

The NAUMD Innovation Award Winning uniform is designed to comfortably stand up to the demanding conditions of the streets and maintain a professional public image. It's all about the new enhanced fabric—the Nanospun, 4-way stretch polyester is wrinkle-resistant, lightweight, and non-absorbent, and does not fade or shrink. Pants feature a cellphone pocket, and cargo pocket magnet closures provide stealth, easy access.

- Uniform Shirts and Undervest Upper: 100% Polyester with 16% 4-Way Stretch | Weight: 4.5 oz./sq. yard
- Undervest Knit Torso: 100% Featherweight Performance Polyester | Weight: 4.25 oz./sq. yard
- Pants: 100% Polyester with 16% 4-Way Stretch | Weight: 6.3 oz./sq. yard
- Permanent Nano Fluid technology allows fluids to bead up and roll off fabric, keeping you dry and comfortable
- UPF 40+ protection reduces damage from the sun
- Mesh underarm vents in shirts and gusseted crotch in pants enhance comfort and mobility
- Communication wire openings, mic loop, and multiple pockets in both shirts and pants improve functionality
- Permanent creases, concealed zipper closure in shirts and 2" stretch waistband with snap closure in pants add convenience and professionalism

VESTS & ACCESSORIES

BODYSHIELD™ EXTERNAL VEST CARRIER

The V4 BodyShield External Vest Carrier allows you to wear a ballistic vest over your uniform for maximum comfort and accessibility while remaining virtually invisible to the untrained eye. Antimicrobial technology in the lining and neck opening prevents the buildup of odor-causing bacteria, and multiple pockets and available pouches allow for customizable storage options.

- Shell Fabric: 600 Denier Syntex 100% Polyester Plain Weave | Weight: 7.2 oz./sq. yard
- Lining Fabric: 65% Polyester/35% Cotton Twill Weave | Weight: 5.5 oz./sq. yard
- Anti-microbial technology in the lining and neck opening and UPF 50 protection extended life of the vest
- Factory certified, this vest is designed to house any manufacturer's body armor
- Addition of a 2" knit elastic extension to the end of each front side panel, provides extra range of motion while relieving direct stress on the new and improved reinforced FastLock closure
- Zipper openings on inside for easy insertion of ballistic panels
- Large covert document pocket, dual-access chest pockets with pencil compartment in left pocket, and zipper opening on front placket with camera mount tab provide functional storage
- Available in regular, short, long, and extra-long sizes

VEST CARRIER FIT GUIDE

FIT GUIDE FOR EXTERNAL VEST CARRIER

This chart is meant to be used as a guide in determining suitable size options available & should not replace an actual garment fitting. Upon receipt of the garment, we recommend that it be tried on by the intended wearer to ensure proper fit prior to making any alterations.

We recommend keeping the ballistic panels inside the panel carrier when measuring. Keep tape straight, but not tight. Measure the full amount of both the ballistic panels and the excess fabric bulk created by the panel carrier

- A FRONT PANEL WIDTH:** With the cloth tape measure, measure the ballistic carrier at the widest point of the body of the front panel This point should fall between the bottom of the armhole & the waistline of the carrier.
- B FRONT PANEL HEIGHT:** With the cloth tape measure, measure the front height of the ballistic carrier from the center front neckline to the waistline.
- C BACK PANEL WIDTH:** With the cloth tape measure, measure the ballistic carrier at the widest point of the body of the front panel This point should fall between the bottom of the armhole & the waistline of the carrier.
- D BACK PANEL HEIGHT:** With the cloth tape measure, measure the front height of the ballistic carrier from the center front neckline to the waistline.
